# PROFILL®

OPEN CELL SYSTEM

NEED A BETTER  
CMU INSULATION SOLUTION?  
WE'VE GOT YOU COVERED.™

**NO SPECIAL  
EQUIPMENT NEEDED**

**APPLICATOR-FRIENDLY  
FOAM**

**HIGH  
R-VALUE**

**QUALIFIES FOR  
LEED CREDITS**

**QUICK  
VERIFICATION**

Enverge ProFill® offers the exceptional ease of application that spray foam applicators demand, requiring none of the special equipment needed with other CMU insulations.

**ProFill is approved for use in all construction types and can be used in UL listed rated walls.**

## ENVERGE PROFILL APPLICATOR BENEFITS

### NO SPECIAL EQUIPMENT

Use your existing polyurethane spray foam equipment to install.

### FAST AND EASY INSTALLATION

Reduces project completion and clean up time.

### QUICK VERIFICATION

Results can be viewed immediately with a thermal imaging camera.

### EXPANDED SCOPE OF WORK

Increase revenue opportunities in commercial projects.

### LONG TERM OPEN CELL PERFORMANCE

Will not shrink over time like urea formaldehyde foam insulation (UFFI).

### VERSATILE APPLICATION

ProFill can conform to irregular shapes and sizes within CMU block walls, providing effective insulation in challenging construction scenarios.

## PRODUCT USES

Enverge ProFill Open Cell spray foam outperforms “amino foams” in a variety of commercial and industrial applications including:

- CMU Blockfill
  - Walls
  - Floors
  - Attics
